

## **Silkolene®**

### **CLEANERS & DEGREASERS**

#### **SILKOLENE BRAKE & CHAIN CLEANER**

A powerful cleaner for brake and chain components. With its powerful spray, FUCHS SILKOLENE Brake & Chain Cleaner is perfect for removing unwanted deposits from chain and brake components – leaving no oily film whilst maintain chain and brake performance. Safe to use on seals and hoses.

FUCHS SILKOLENE Brake & Chain Cleaner is specially formulated to remove brake pad dust, prevent brake "squeal" and "chatter"; is also suitable for precision degreasing of metal parts, and can be used on all drive chains on motorcycles, ATVs, karts, cycles, etc.

For brakes, spray directly onto affected components, allow the spray to evaporate and re-assemble. Use in a well-ventilated area.

For chains, spray onto chain and allow to soak in. Agitate with a brush or a cloth and then allow to dry. Lubricate with a FUCHS SILKOLENE Chain Lubricant as soon as chain is dry.

#### **SILKOLENE INJ / CARB CLEANER**

A selected blend of solvents which is designed to remove lacquer, gum and resin from carburettors, fuel injection systems and automatic chokes, allowing smoother operation and improving engine efficiency. FUCHS SILKOLENE INJ / CARB Cleaner is also suitable for cleaning throttle linkages and carburettor bodies.

Start engine with the air filter removed. With the throttle set at quarter to half open, spray cleaner into air intake until the engine begins to stall. Cease spraying and refit the filter.

#### **SILKOLENE CONTACT CLEANER**

A powerful solvent designed to clean components leaving no residual film. Its vigorous penetrating and quick drying action makes FUCHS SILKOLENE Contact Cleaner perfect for cleaning fouled plugs, dirty points and other precision parts and is also ideal for cleaning suspension and engine components during assembly.

Spray onto parts to be cleaned and allow to dry off.

#### **SILKOLENE WASH-OFF**

A cost-effective spray-on / hose-off bike cleaner suitable for use on all street and off-road motorcycles as well as ATV's and pedal cycles including Mountain bikes. FUCHS SILKOLENE Wash-Off has been specially designed to rapidly remove all types of dirt from metals and plastics with minimum effort. FUCHS SILKOLENE Wash-Off can be used to clean unprotected aluminium alloy components without corrosive effects as well as plastics, paint, rubber and glass surfaces. All can be cleaned again and again without deterioration or cracking.

FUCHS SILKOLENE Wash-Off is also suitable for use in pressure washers.

Apply neat with a hand pump-spray and finish off with SILKOLENE PRO-PREP for that elusive, gleaming 'factory finish'.
